Illinois Veteran Classroom Project

<http://ilvets.ltc.k12.il.us>

Connecting Our Past to Our Future

- Preserve the personal stories of Illinois veterans through the use of digital technologies for preservation at a state and national level in cooperation with the U.S. Library of Congress' Veterans History Project.
- Assist all members of our communities in understanding the service and sacrifice our veterans willingly gave to preserve our American way of life.
- Provide students the opportunity, training and equipment to complete personal interviews capturing the experiences of Illinois Veterans using digital storytelling and inquiry-based learning.

An overview of one of the participating schools, Carlinville High School, <http://www.broadbandillinois.org/news/251>

You can participate!

To obtain information:
Area 5 Learning Technology Center
200 Clay Street
Edwardsville, IL 62025
